Presents

JUNE 2015

AG ED INSTRUCTOR’S
BEGINNERS SMALL ENGINE
WORKSHOP

JUNE 22-25, 2015
The University of Arizona
Agriculture Technology Education Center (ATEC)
UA Campus Agricultural Center
4101 N. Campbell Ave. Tucson, Arizona

HANDS-ON TRAINING LED BY BRIGGS & STRATTON INSTRUCTOR

This 3-day school will guide you through all of the facets of Briggs and Stratton Engines being used in the OPE industry. You will completely disassemble, inspect and reassemble Briggs & Stratton engines, including overhead valve engines. After completing this course you will have the technological edge to be successful in today’s OEP industry. All Briggs & Stratton registered service dealers are required to have a technician on staff that has completed this class.

Subjects to be covered will include: Parts Look Up, Price Lists, Service Manuals, Rewind Starters, Four-Cycle Theory, Carburetor Theory, Governor Systems, Electrical Theory, Electrical Testing and Trouble Shooting, Systematic Trouble Shooting of Engines, Major Engine Failure Analysis, Briggs & Stratton Warranty Policy Procedures and much, much more!
