Want to start using CASE in your agricultural education program?

Attend a CASE Institute!

- CASE Institutes are intense professional development led by practicing CASE teachers.
- The CASE curriculum is free to those who successfully complete a CASE Institute.
- Institutes are hosted by affiliated universities and colleges across the United States each summer.
- CASE teachers receive complimentary updates to the curriculum and many other services throughout their careers.
- For a complete listing of upcoming CASE Institutes and certification information, please visit www.case4learning.org and click on “Professional Development.”
“Career and Technical Education students should follow a program of study made up of a purposeful sequence of rigorous courses to build student knowledge and skills.”

Principles of Agricultural Science — Animal

All CASE pathways begin with the Introduction to Agriculture, Food, and Natural Resources course, then branch into four areas which focus on animals, plants, agricultural engineering, and natural resources.

The Animal Systems pathway includes the foundation course Principles of Agricultural Science — Animal and progresses to a specialization course in either Animal and Plant Biotechnology or Food Science and Safety. All CASE pathways culminate with the capstone course Agricultural Research and Development.
