

COLLEGE OF AGRICULTURE
AND LIFE SCIENCES

AGRICULTURAL EDUCATION

Graduate Certificate in AGRICULTURAL LEADERSHIP (12-13 units)

4 Courses:

- ALC509** - Team and Organizational Leadership
- ALC511** - Principles and Applications of Organizational Innovation
- AED617** - Research Methods and Project Design
- ALC593** - Internship or
- AED697** - Workshop on Teaching at the College Level

The certificate program offers the individual, working in the field of agriculture, the opportunity to excel in the area of leadership. Leadership skills, the ability to assist organizations with development of innovative programs through research and evaluation, and skill in assembling and leading team members through these activities is essential for those interested in being a leader in the field.
